This PRIIP is authorised in Finland.

OP-Fund Management Company Ltd is a part of OP Financial Group.

Publishing date of the KID 19 Jan 2024

What is this product?

Type

This product is an equity fund (UCITS).

Term

The product is an open ended product without a maturity date. The manufacturer is entitled to terminate the product unilaterally. The product cannot be terminated automatically.

Objectives

OP-Emerging Asia Fund is an equity fund investing its assets primarily in the emerging Asian equity markets. Key markets for the fund include China, India, Indonesia, Malaysia, Thailand, the Philippines, Pakistan and Vietnam. The fund's investments are primarily made through direct equity investments. The fund may use derivatives instruments in its investment activities to hedge against market fluctuations, to replace direct investments and to otherwise promote efficient portfolio management. The fund's equity exposure may vary so that a minimum of 50 % and a maximum of 110 % of the fund's NAV is invested in the equity markets. Typically the equity weight ranges between 90–100 %. The fund's assets are diversified in the shares of many companies. Typically the fund invests its assets in the shares of about 80–120 companies, but this number may vary reflecting the views taken by the portfolio manager.

The benchmark of the fund is MSCI Emerging Markets Asia (ex Korea, ex Taiwan, limiting India and China 25% in total) Net in EUR. The fund seeks actively to outperform the return of its benchmark in the long term. The Fund mainly takes notable active risk and it may differ significantly from the composition, weights and risk level of the benchmark index. Use of derivatives enabled by the fund rules may increase the fund unit value fluctuation. Any income received from the investments of the fund is reinvested in the fund.

The investments underlying this fund do not take into account the EU criteria for environmentally sustainable economic activities. However, this fund integrates sustainability risks using the methods specified in the fund prospectus.

The Fund uses a relative Value at Risk (VaR) analysis to monitor total risk. The Fund's VaR may not be more than double the benchmark portfolio's VaR. More information on VaR calculation can be found in OP Fund Management Company's fund prospectus.

Shares in the fund can be purchased or sold on every banking day. If the execution order is received by 10:00, the order is executed to the value of the following banking day.

Intended retail investor

The product is aimed at investors without prior financial experience but who understand the basics of investing. The investor's main objective is to generate revenue. The product is suitable for investors who do not require capital protection. Investors are prepared to keep their investment for 9 years but want to retain the option to exit early if necessary.

The custodian of the Fund is OP Custody Ltd. The Fund's rules, prospectus and more information are available in the languages used to market the fund. The annual report and half-yearly report are available in Finnish. The documents are available free of charge at <https://www.op.fi/private-customers/savings-and-investments/funds> and at OP branches.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
◀ Lower risk						Higher risk ▶

The risk indicator assumes you keep the product for 9 years.
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact the capacity of OP-Fund Management Company Ltd to pay you. Other relevant risks not included in the risk indicator: equity market risk, currency risk, emerging market risk. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		9 years	
Example Investment:		10,000 €	
		If you exit after 1 year	If you exit after 9 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose all of your investment.		
Stress	What you might get back after costs	2,147 €	1,111 €
	Average return each year	-78.53%	-21.66%
Unfavourable	What you might get back after costs	7,468 €	8,822 €
	Average return each year	-25.32%	-1.38%
Moderate	What you might get back after costs	10,177 €	14,403 €
	Average return each year	1.77%	4.14%
Favourable	What you might get back after costs	13,578 €	21,281 €
	Average return each year	35.78%	8.75%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The stress scenario shows what you might get back in extreme market circumstances. The RHP unfavourable scenario occurred for an investment between 31 Jul 2019 and 31 Dec 2023. The RHP moderate scenario occurred for an investment between 28 Feb 2014 and 28 Feb 2023. The RHP favourable scenario occurred for an investment between 31 Jan 2010 and 31 Jan 2019.

What happens if OP-Fund Management Company Ltd is unable to pay out?

The fund's assets belong to its unitholders and the Fund Management Company can only charge those expenses from the fund which under the fund rules are payable to the fund management company. If the Fund Management Company becomes insolvent, the fund's custodian must begin managing the duties of the Fund Management Company and, at the same time, immediately take measures for handing over the mutual fund's management to another fund management company or merging or terminating the mutual fund. Mutual fund investments do not fall within the scope of any compensation or guarantee schemes.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 euros is invested.

	If you exit after 1 year	If you exit after 9 years
Total costs	476 €	3,317 €
Annual cost impact (*)	4.76%	3.23%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.37% before costs and 4.14% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.00% of the amount you pay in when entering this investment.	100 €
Exit costs	1.00% of your investment before it is paid out to you.	100 €
Ongoing costs		
Management fees and other administrative or operating costs	2.51% of the value of the investment annually. This is an estimate based on the calculations of the party responsible for the product. This cost is taken into account in the daily price of the investment object.	251 €
Transaction costs	0.32% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. This cost is taken into account in the daily price of the investment object.	32 €
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 €

How long should I hold it and can I take money out early?

Recommended holding period: 9 years

This product does not have any minimum recommended investment period, but the product is meant for long-term investing and the minimum recommended investment period is 9 years. The minimum recommended investment period is based on the risk/return profile of the investment vehicle. If you dispose of the investment vehicle before the minimum recommended investment period, there will be a greater risk for the value fluctuation of the investment vehicle.

How can I complain?

If you would like to file a complaint related to either the product or the actions of the PRIIP product's developer, seller or advisor, you can do so on our website at www.op.fi or send your complaint in writing to OP Fund Management Company Ltd, Gebhardinaukio 1, 00510 Helsinki or by email to op-rahastoyhtio@op.fi or call +358 (0) 10 252 7051.
